MUHAMMED FAVAS.P

MERN-STACK DEVELOPER

📞 +918157050427　📍 Mannarkkad,India　in *Linkedin*　✉ favas78601@gmail.com

ABOUT ME

Self-taught and highly motivated MERN Stack Developer with a passion for building dynamic, real-time web applications. Proficient in JavaScript, React, Node.js, and MongoDB, with hands-on experience developing full-stack projects from concept to deployment. Eager to apply problem-solving skills and a strong foundation in web technologies to contribute to a challenging and innovative development team.

EDUCATION

2018-2021
Calicut University

Bachelor of Commerce (B.Com)
Universal College of Arts and Science, Mannarkkad

PROJECTS

2025

CodeCollab - Real-Time Collaborative Coding Platform
Live Link: codecollab-beta.vercel.app
A full-stack web application developed to allow multiple users to write, edit, and share code simultaneously.

Key Contribution:
Engineered the core real-time code synchronization feature using Socket.IO, ensuring low-latency updates across all connected clients.

Features:
Implemented secure user authentication with JWT, created a clean and intuitive user interface with React, and built a robust RESTful API with Node.js and Express for data management.

Technology Stack:
React, React Router (Frontend) | Node.js, Express.js (Backend) | MongoDB, Mongoose (Database) | Socket.IO (Real-Time) | JWT, bcrypt.js (Authentication).

2025

SyncSpace- Real-Time Service Marketplace
Live Link: sync-space-lake.vercel.app
A full-stack MERN application designed as a real-time marketplace to connect clients with local service providers.

Key Contribution:
Developed the real-time bidding system using Socket.IO, enabling providers to bid on jobs and clients to receive instant updates.

Features:
Implemented full CRUD functionality for job postings, a secure JWT-based authentica tion system, a complete job workflow from bid acceptance to completion, and a comprehensive provider review and rating system.

Technology Stack:
React, Material-UI, Axios (Frontend) | Node.js, Express.js (Backend) | MongoDB, Mongoose (Database) | Socket.IO (Real-Time Bidding) | JWT (Authentication).

SKILLS

- JavaScript
- React.js
- Node.js
- MongoDB
- Express.js
- JWT
- Socket.io
- bcrypt.js
- Communication
- Collaboration
- Inovation
- Problem Solving
